TECHNICAL SKILLS

- **Frontend Development:** HTML, CSS, SASS/SCSS, Bootstrap, JavaScript, D3.js, jQuery, React.js, Material Design UI.
- **Backend Development:** Node.js, Express.js, Next.js, PHP, KoaJS, NuxtJS, Codeigniter, Laravel, Firebase, MongoDB, MySQL, MariaDB, PostgreSQL, SQLite
- **Mobile Development:** React Native
- **Version Control and DevOps:** Git, Gitlab, GitHub Actions, Travis CI, Trello, JIRA.
- **Cloud Platforms:** Google Cloud Platform, AWS, Digital Ocean, Heroku, Now.sh, Netlify.

WORK EXPERIENCE

Software Engineer, Andela - 09/2017 - 03/2020 - Lagos, Nigeria

Andela is an engineering-as-a-service business that helps companies build remote teams quickly and cost-effectively.

- Created external data integration tools using NodeJS that broadcast data change in real-time to over five different microservices, thereby increasing the system performance by over 25%.
- Developed & maintained fully auto-scale infrastructure using NodeJS, delivering applications that can rapidly scale up and down based on the load and internal information.
- Built and maintained many user-friendly applications & back-end services using NodeJS and ReactJS, demonstrating service-oriented architecture and focus on the client's needs.
- Determined job priorities for over 30 projects and communicated sequencing, priorities, and timeline to the entire team, which sporadically improved productivity by over 20%.

Software Engineer, Quartet Health - 06/2019 - 02/2020 - New York, United State

Quartet is improving access to and delivery of mental health care through technology and services.

- Developed full-stack applications using ReactJS and NodeJS with a dedicated team, deployed to production with over 1 million active users.
- Implemented unit and integration testing protocols using tools like Jest and Selenium to consistently deliver high quality, functional features with minimal defects.
- Collaborated with other developers to identify and alleviate several bugs in software and also optimize website speed, thereby improving user experience and increasing active users by 5%.
- Implemented NodeJS API endpoints to handle and aggregate data coming from multiple servers efficiently.

Senior PHP Developer, Site123- 03/2018 - 02/2019 - Yehud, Israel

Site123 is a perfect solution for a private or a corporate Internet user, offering tools that help anyone quickly build a high-quality website without coding experience or hiring a professional.

- Developed a custom upload system with multiple data upload, preview, and custom settings, thereby improving data upload speed by over 20%.
- Built logo designing tools using PHP, Mysql, and JQuery that support custom or templated designs, thereby saving clients over 70% in logo and banner designing cost.
- Reviewed code to validate structures, assess security and verify browser, device, and operating system compatibility.

PREVIOUS EXPERIENCES

- **Technical Mentor, Udacity - 03/2018 - 02/2019 - New York**
- **Technical Mentor, Facebook Developer Circle - 08/2019 - 01/2020 - Nigeria**
- **Technical Team Lead, Phixit Technology - 02/2014 - 04/2017 - Nigeria**

SIDE PROJECTS

NPM: React Timepicker package: NPM package that supports auto-suggestions and custom time input.

Job Management System: Application to interactively connect employers to employees.

Library Management System: Application to interactively connect employers to employees.

EDUCATION AND CERTIFICATES

2018 - 2022 - **B.Sc. in Computer Science**, University of the people

2010 - 2014 - **Science**, Senior High School
