
Professional Summary

Seasoned Senior Software Engineer adept at leading cross-functional teams. Remarkable relationship building, decision making and communication skills. Known for best-in-class software development and collaboration.

TECHNICAL EXPERIENCE

Technical Team Lead	Autochek	04/2020 - Present
<ul style="list-style-type: none">Led a team of brilliant backend engineers to develop scalable, secure and fully tested backend applications using a microservices architecture.Built and Maintained web application components and interfaces specializing in the automobile using the latest software technologies like ReactJS, Nodejs, Nestjs, Typescript, GRPC and Postgres.		
Software Engineer	Andela(Nigeria)	09/2017 - 03/2020
<ul style="list-style-type: none">Developed & maintained fully auto-scale infrastructure using NodeJS and Google Pubsub, delivering applications that scale efficiently based on the load and internal information.Created external data integration tools using NodeJS, Reactjs and Postgresql that emits data change in real-time to over five different microservices, thereby increasing data consistency across the systems.Determined job priorities for over 30 projects and communicated sequencing, priorities, and timeline to the entire team, which sporadically improved productivity by over 20%.		
Fullstack Engineer	Quartet Health(New York)	06/2019 - 02/2020
<ul style="list-style-type: none">Created full-stack applications using ReactJS and NodeJS with a dedicated team, deployed to production with efficient scaling system.Implemented unit and integration testing protocols using tools like Jest and Selenium to consistently deliver high quality, functional features with minimal defects.Collaborated with other developers to identify and alleviate several bugs in software and also optimize website speed, thereby improving user experience and increasing active users by over 20%.Implemented NodeJS API endpoints to handle and aggregate data coming from multiple servers efficiently.		
Senior PHP Developer	Site123(Israel)	02/2018 - 03/2019
<ul style="list-style-type: none">Developed a custom upload system with multiple data upload, preview, and custom settings, thereby improving data upload speed by over 20%Built logo designing plugins using PHP, Mysql, and JQuery that support custom or templated designs, thereby saving clients over 70% in logo and banner designing costReviewed code to validate structures, assess security and verify browser, device, and operating system compatibility.		

Technical Mentor**Udacity****02/2018 - 03/2020**

- Conducted small group and individual classroom activities with students based on differentiated learning needs.
- Eliminated learning gaps and effectively instructed students by developing IEPs and using a wide variety of teaching aids and motivational
- Organized and prepared instructional materials, communiqués, and reports for students learning Javascript, ReactJS and
- Mentored and coached students on React native, ReactJS and NodeJS by giving positive feedback and constructive criticism.

EDUCATION**Lagos, Nigeria****Isolo Senior****2010 - 2014**

- **Programming Courses:** Software design, Algorithm Analysis, Databases, Algorithms, Programming Languages, ReactJS, NodeJS, Web Security, PHP, Functional Programming, Dynamic programming.

ADDITIONAL EXPERIENCE**Projects**

- [Job Management System](#): Application to interactively connect employers to employees.
- [Netflix Clone](#): NPM package that supports auto-suggestions and custom time input
- [NPM: React Timepicker package](#): NPM package that supports auto-suggestions and custom time input.

Languages and Technologies

HTML, CSS, Bootstrap, JavaScript(Expert) jQuery, SQL, MongoDB, Cloud computing, React.js(Expert), Firebase, NestJS(Professional), Node.js(professional), Express.js, Next.js, PHP, KoaJS, NuxtJS, PHP, Jira, Slack, Gitlab, Github, Google Cloud Platform, AWS, Digital Ocean, Heroku.
